- Perform inspections and checks of fire and EMS vehicles and equipment.
- Make adjustments and minor repairs to equipment and apparatus; maintain and forward related records when required. (Responsible for maintaining all necessary files).
- Drive or ride in emergency vehicles responding to fire alarms; place equipment. Respond to requests for Emergency Medical assistance.

Working Conditions/Physical Abilities:

All Career Captains, Lieutenants, and Firefighters herein referred to as "Firefighters" will work in circumstances varying from the classroom to the scenes of fires and other emergency incidents. Due to the nature of the work, Firefighters work in unpredictable circumstances involving the threat or actual presence of physical harm. The work contains an element of personal danger.

Hazardous tasks performed under emergency conditions may require strenuous exertion under such handicaps such as limited visibility, exposure to hazardous or toxic chemicals or gases, extremes in temperature, cramped surroundings, and contact with death, emotional stress, trauma, contagious disease and terminal illnesses.

Firefighters are also exposed to extreme heat, contaminated environments, emotionally upset people, noise, and physical hazards from traffic, fire and falling objects, and atmospheric conditions such as smoke, fumes, odors and gases. They may be required to wear full structural

protective clothing and SCBA, a hard hat, safety glasses, earplugs, respirator, rubber or plastic gloves and rubber boots.

Firefighters must be able to see, speak and hear clearly in noisy and stressful situations. They must meet required physical and medical standard. They must receive and give information via telephone and radio, which is critical to the outcome of an emergency incident. This includes synthesizing and communicating this information to a third party, as appropriate. Such communicated information is often critical to the successful outcome of the incident or the safety of the crew, which the individual is a part of. This could include receiving instructions from a physician for patient care, a dispatcher as to which unit to send, or from a command officer directing a unit to take a specific action on an emergency incident.

Firefighters must be able to develop and write a report documenting, in a chronological order, the events that took place on an incident to which the writer responded.

Upon arrival at an emergency scene, the firefighter must perform “size-up” of the incident and communicate to the Dispatcher (via radio) a brief description of the incident.

Firefighters must be able to carry, drag, or restrain individuals or equipment up to 100 pounds. Varying work schedules and shift work is required, and the firefighter may be recalled for emergency duty as needed. They will be required to remove injured persons from immediate areas of hazard using drags, carries, and stretchers.

Firefighter work also involves the search for victims in a burning building. This includes use of self-contained breathing apparatus, full turn out gear, operating in extremely poor visibility and a hot environment while working in a team.

Work involves walking, talking, hearing, using hands to handle, feel or operate objects, tools, or controls and reach with hands and arms. Vision abilities required by this job include close vision, distance vision, peripheral vision, depth perception, and the ability to adjust focus.

The employee may be required to push, pull, lift, and/or carry up to 100 pounds. As one member of a two person team who must carry a Reeve’s Stretcher with a patient weighing 220 pounds, up one flight of stairs, 100 feet down a hall way and then down one flight of stairs, resting no more than three short times. He may also be required to act as one member of a two-person team, who must lift a roller cot (weighing approximately 75 lbs.,) from street level into an ambulance. The distance from street level to the floor of the ambulance is 35”. The weight of an average patient is considered be 200 lbs.

The firefighter must be able to carry approximately 60 pounds of equipment, using shoulder bags, and other carrying devices, from an emergency vehicle into the scene of an incident. The distance from the vehicle to the patient varies. Examples of normal distances extend from the vehicle to:

- A house a short distance away.

- An office or apartments in a high-rise building using the elevator.

- An office or apartment in a high-rise building using the stairwells because the elevator is out of service.

- A car, which has run off a roadway into thick woods or underbrush

The noise level in the work environment is usually moderately quiet while in the office or moderately loud when in the field.

Work may periodically require the employee to climb, balance, bend, stoop, kneel, crouch, and/or crawl. Operating both as an individual and as a member of a team shall raise each size of ground ladder. Operating as an individual, he must be able to climb the full length of a ground ladder (14-35') and aerial ladder (100') and bring an "injured person" down the ladder.

The employee may be required to work in outside weather conditions, in wet and/or humid conditions, in high precarious places, near moving mechanical parts, near fumes, airborne particles, and/or toxic or caustic chemicals, near risk of electrical shock and/or vibration.

Work involves exposure to weather conditions, all types of terrain, slippery surfaces, hazardous materials, chemicals, toxic fumes and smoke.

This position description is not intended to be a complete list of all responsibilities, duties, or skills required for the job and is subject to review and change at any time, with or without notice, in accordance with the needs of the City. Since no position description can detail all the duties and responsibilities that may be required from time to time in the performance of a job, duties and responsibilities that may be inherent in a job, reasonably required for its performance, or required due to the changing nature of the job shall also be considered part of the job holder's responsibilities. The examples of duties are intended only as illustrations of the various types of work performed. The omission of specific statements of duties does not exclude them from the position if the work is similar, related, or a logical assignment to the position.

The City of Willoughby Hills does not unlawfully discriminate on the basis of color, national origin, sex, religion, veteran status, age, or disability in employment. Persons requesting accommodation for the purpose of testing must provide seventy-two (72) hours' notice to the Civil Service Commission in order to have the request fulfilled.

The job description does not constitute an employment agreement between the employer and the employee and is subject to change without prior notice at the discretion of the employer; as the needs of the employer and requirements of the job change.
